

HORIZON x BROOKS BROTHERS

Priority 1 Concepts

Formal Attire Copy Clarity

Concept

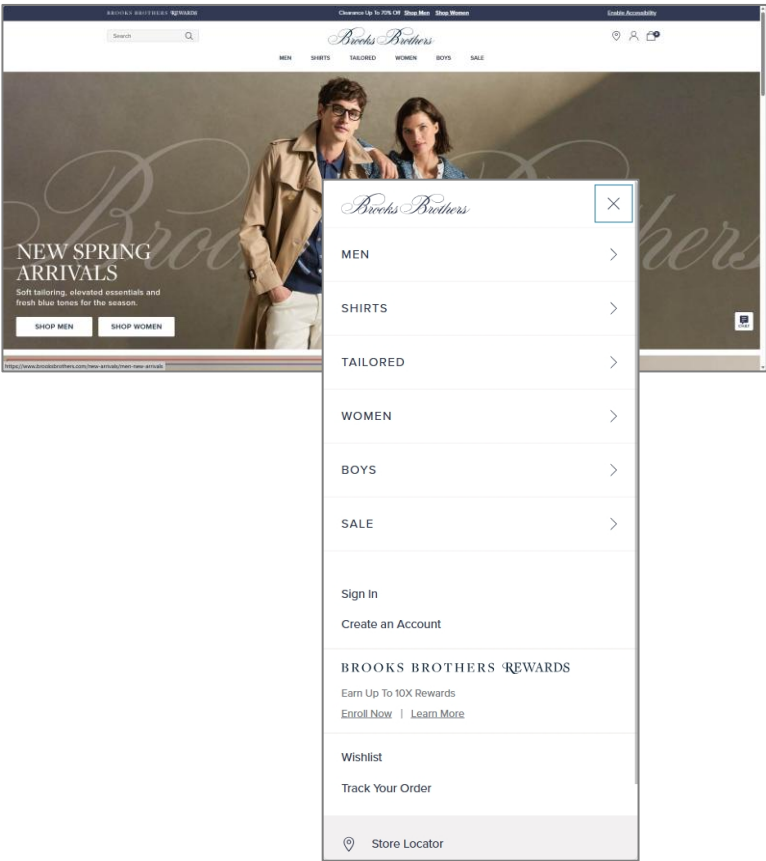

Primary focus:

- Improve understanding of “Tailored” category with commonly used item names

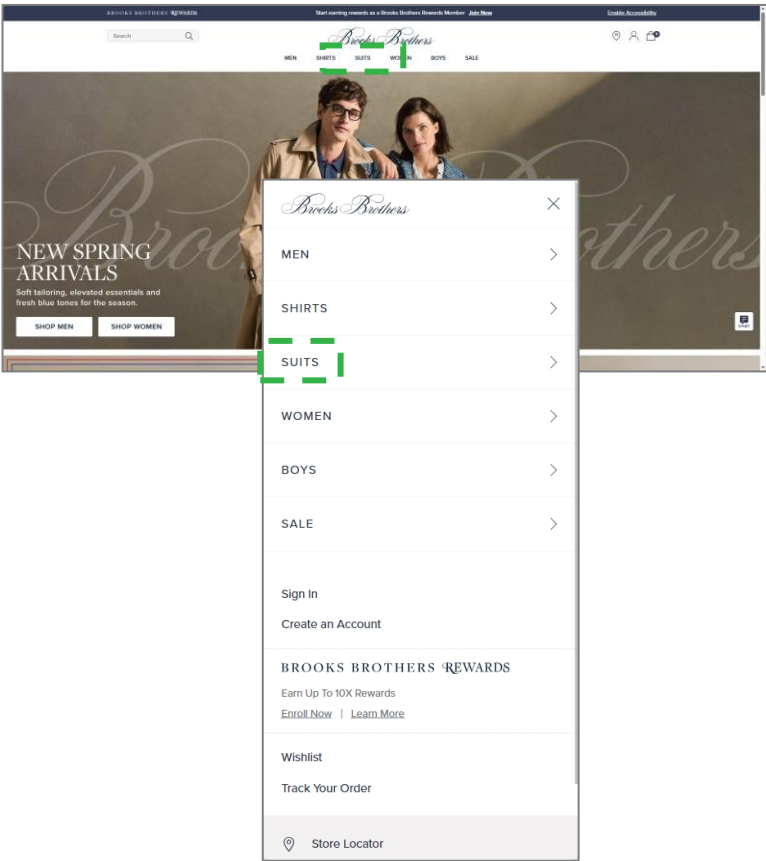

Rationale:

- This was suggested in a FigJam sticky note by a team member with familiarity with the brand and user pain points
- Implementation is extremely low lift

Control

Experiment

Search Suggestions Improve Feature Use

Concept

Primary focus:

- Increase search engagement with suggestions on open. Disappear as users type for existing feature

Rationale:

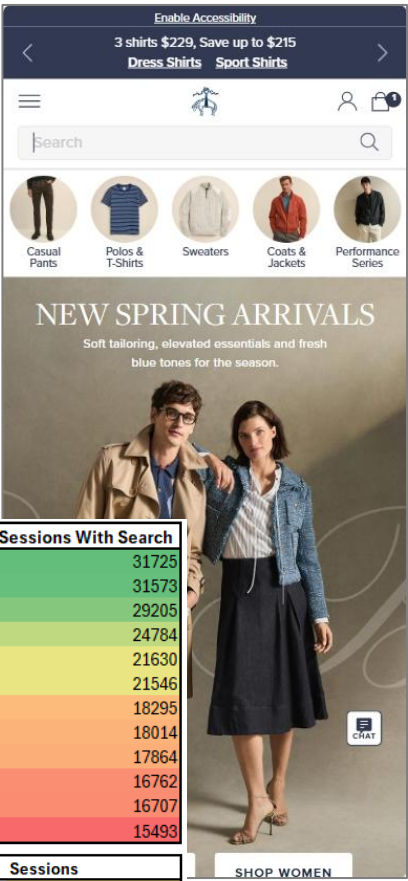

- Competitors like Indochino use popular search suggestions ([link](#)) while Men's Warehouse incorporates images of popular products ([Link](#))
- While only 4.4% of sessions visit search results, those that do are 16.3% of checkouts, 18.8% of orders, and 28% of revenue ([Link](#))
- Suggested values based on top searches from 2/25/25 – 2/24/26 and known priorities:

- | | |
|------------------|----------------------------------|
| 1. Linen Suits | Cardigans |
| 2. Tuxedos | 9. Dress Pants |
| 3. Vests | 10. Casual Pants |
| 4. Ties | 11. Shoes |
| 5. Linen Shirts | 12. Socks |
| 6. Oxford Shirts | 13. Seersucker Suits |
| 7. Polos | 14. Seersucker Coats and Jackets |
| 8. Sweaters and | |

Mobile Navigation Category Imagery

Concept

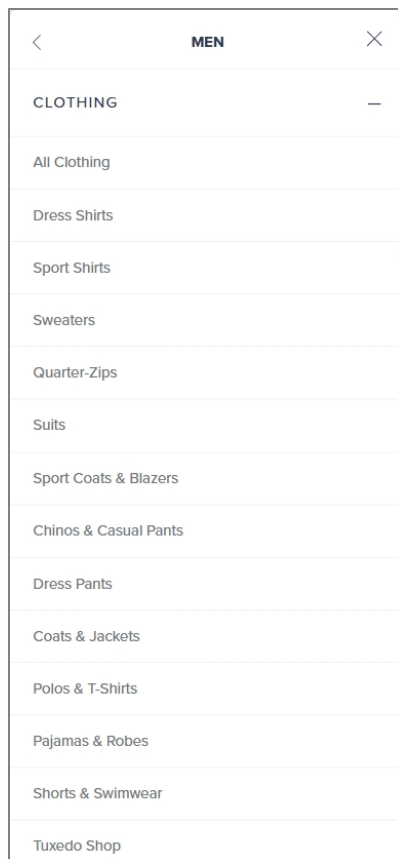

Primary focus:

- Improve navigation scannability and category comparison via product imagery

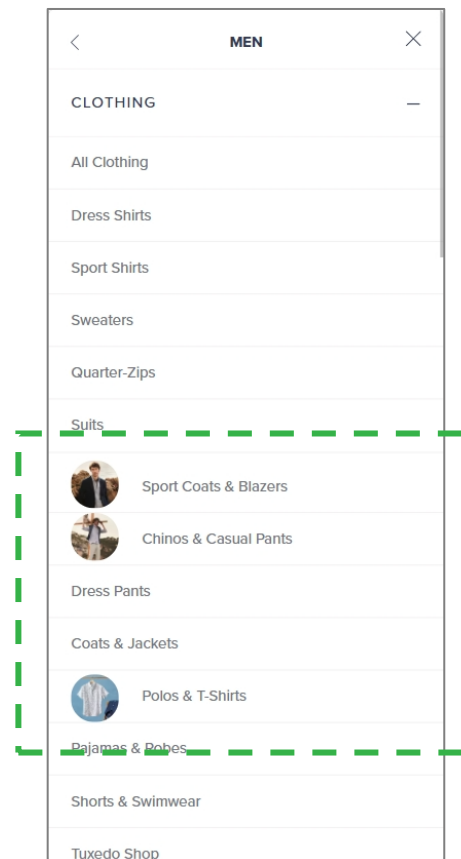

Rationale:

- Category images are a commonly winning practice: [Link](#)
- Bonobos has implemented this: [Link](#)

Control

Experiment

Desktop Navigation Increased Imagery

Concept

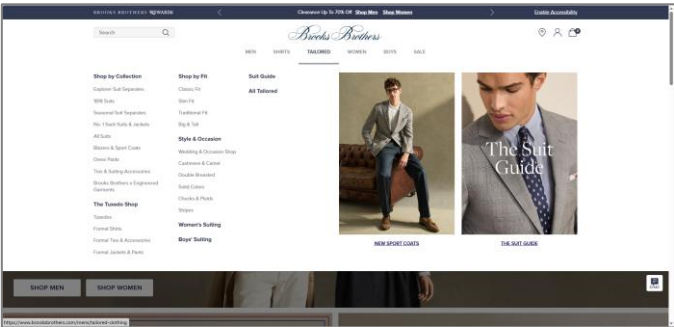

Primary focus:

- Improve navigation scannability and category comparison via product imagery

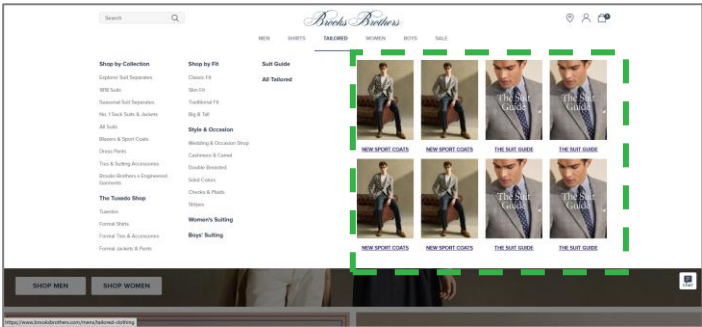

Rationale:

- Category images are a commonly winning practice: [Link](#)
- Bonobos has implemented this: [Link](#)

Control

Experiment

Home Return Visitor Items In Cart Callout

Concept

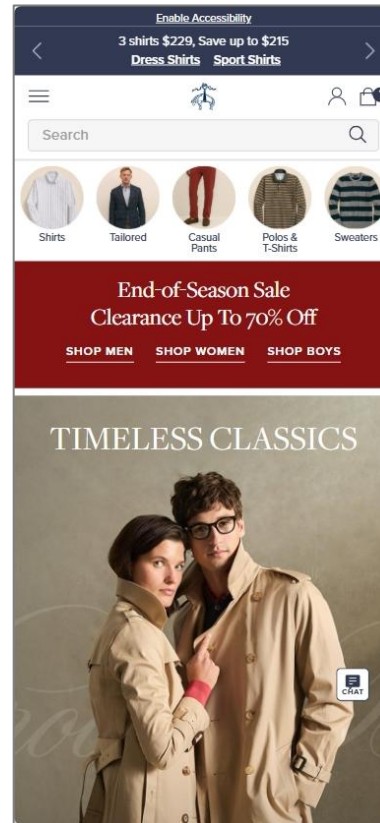

Primary focus:

- Enable high intent users to get down-funnel quickly before they lose interest or give up

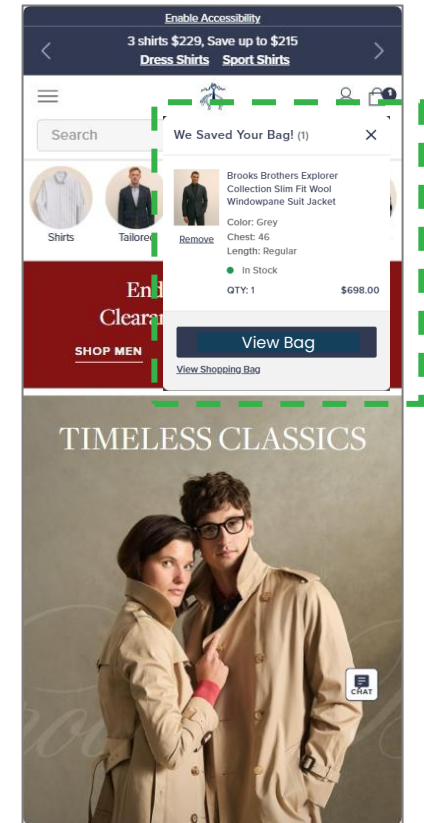

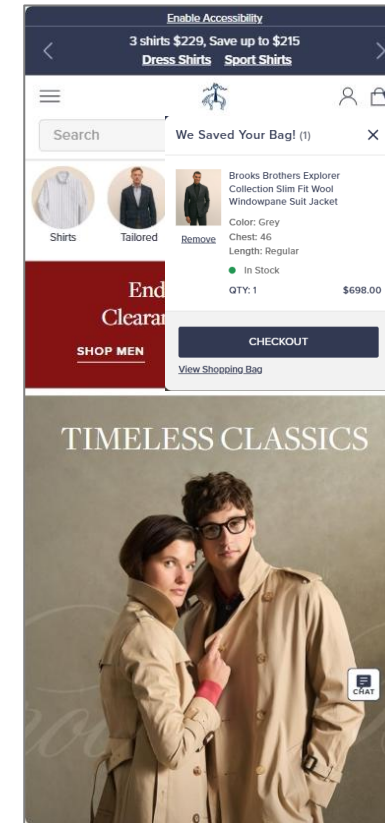

Rationale:

- Users landing on Home are higher intent than those landing on PLPs or PDPs with purchase CVRs as high as 4.74% for desktop users: [Link](#)
- 18% of users reported abandoning cart due to long checkout processes: [Link](#)
- 15% of returning Home visitors begin checkout, compared to 5% for returning PLP visitors, demonstrating desire to get down-funnel: [Link](#)

Control

Experiment

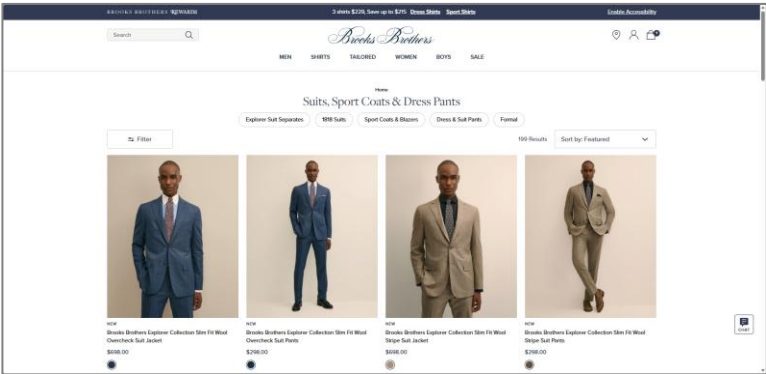

PLP Sub-category visuals – Start /mens/tailored-clothing

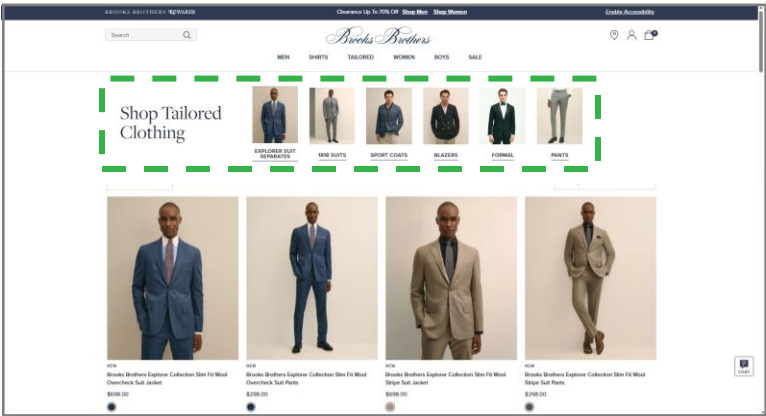

Concept

- Primary focus:**
- Enable effective filtering with visual aids
- Rationale:**
- This is a commonly winning tactic: [Link](#)
 - This tactic is employed by Ralph Lauren ([Link](#)), and even elsewhere on Brooks Brothers' site ([Link](#))

Control

Experiment

Suit Filter Feature Category Ordering

Concept

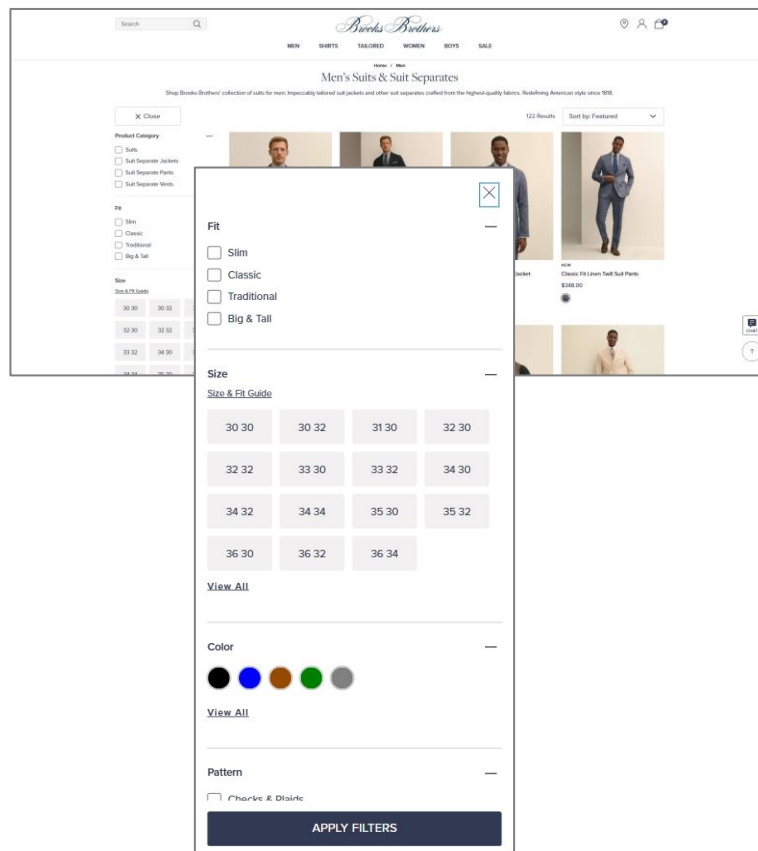

Primary focus:

- Surface more important filters earlier in the page to encourage feature engagement

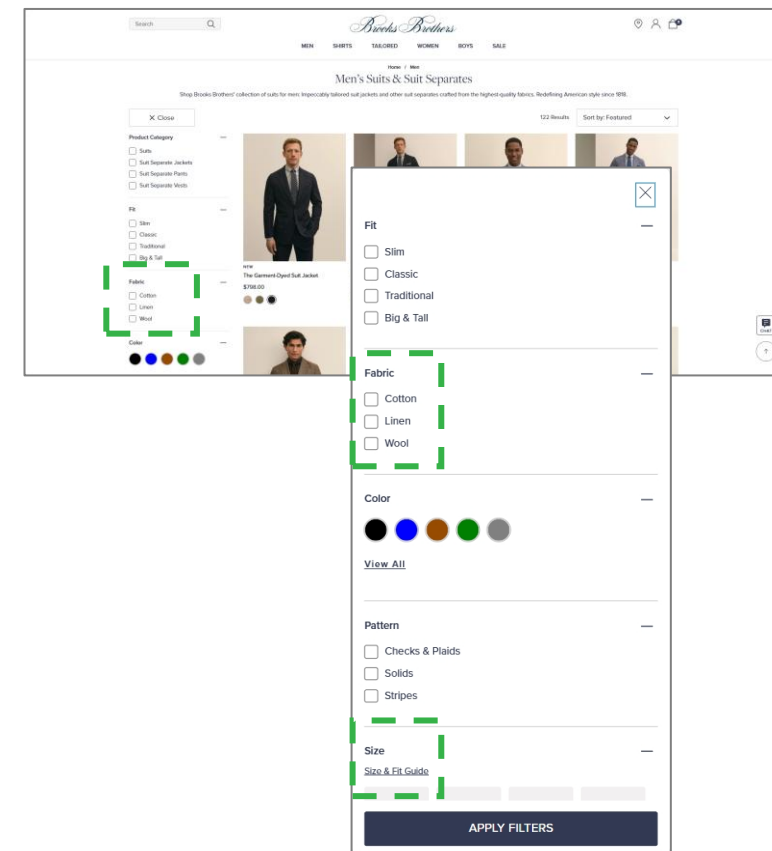

Rationale:

- Deprioritized size as it is a point of confusion and uncertainty, especially in the upper funnel
- Raised “Fabric” as fabric types are commonly searched with the word “Linen” receiving over 29,000 searches in the last 12 months and being the 3rd most common term

Control

Experiment

Dress Shirt Filter Feature Category Ordering

Concept

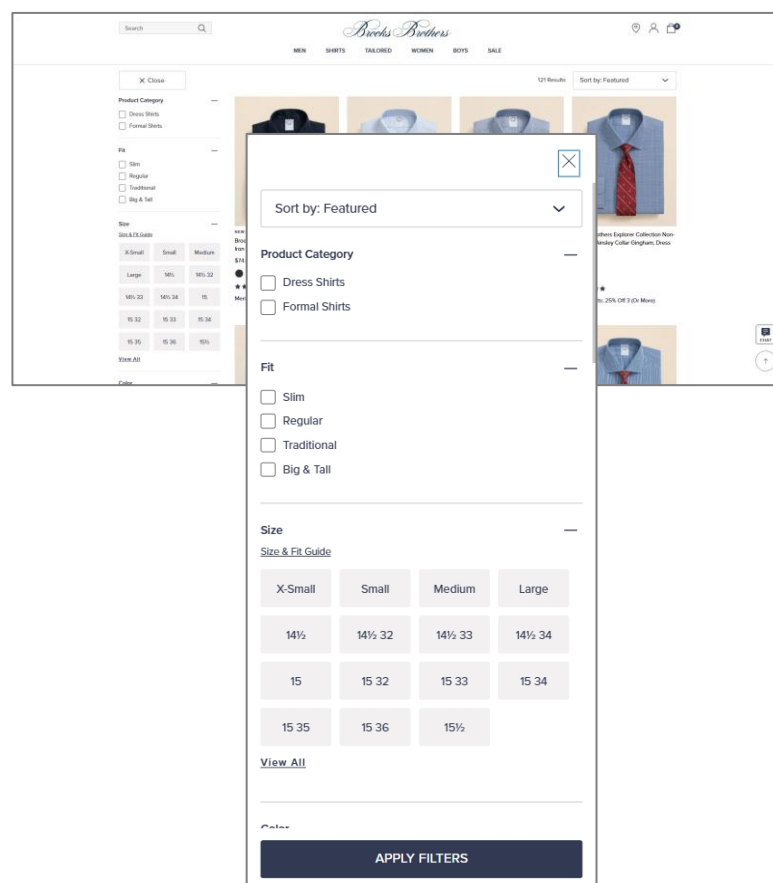

Primary focus:

- Surface more important filters earlier in the page to encourage feature engagement

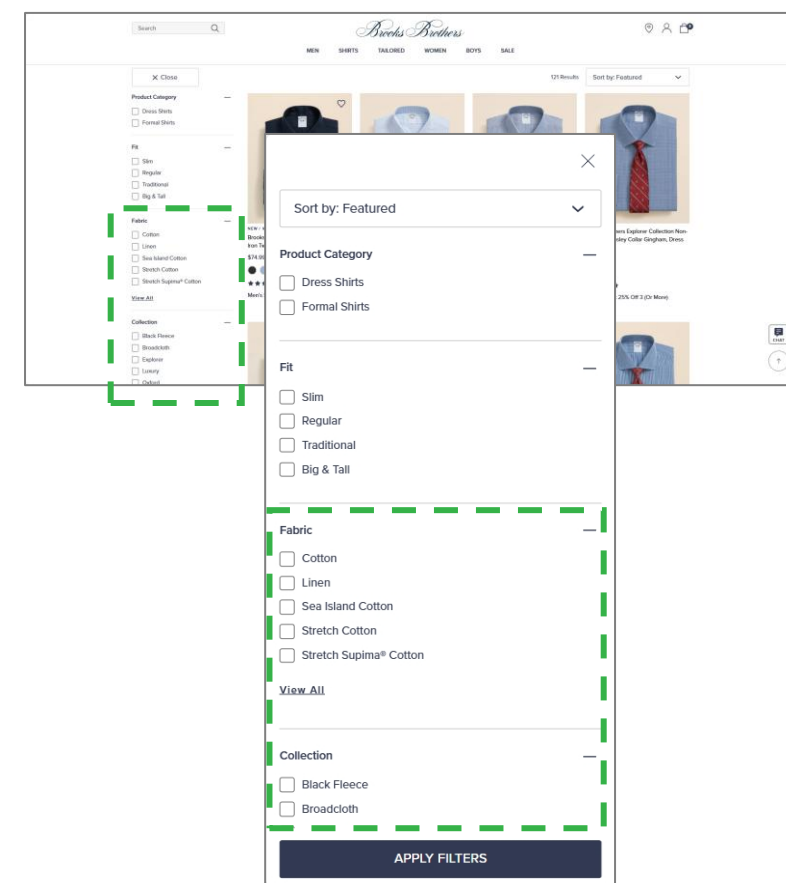

Rationale:

- Deprioritized "Size" below "Pattern" as it is a confusing field, especially in the upper funnel
- Raised "Fabric" as fabric types are commonly searched with the word "Linen" receiving over 29,000 searches in the last 12 months and being the 3rd most common term
- Raised "Collections" as "Oxford" received over 18,000 searches last 12 months and was the 8th most common term

Control

Experiment

Add Free Shipping Messaging For Products Over \$200

Concept

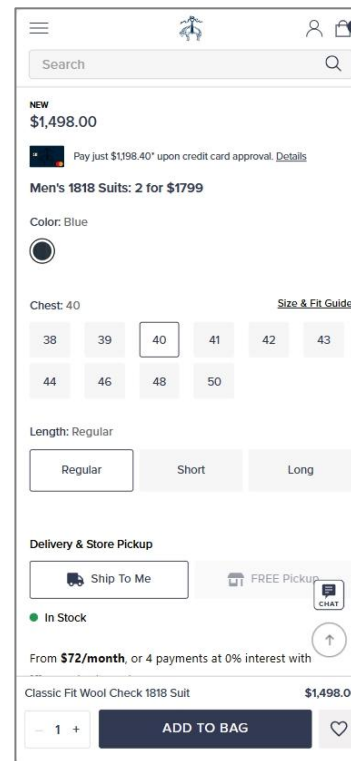

Primary focus:

- Increase ATC and progression into checkout with free shipping message

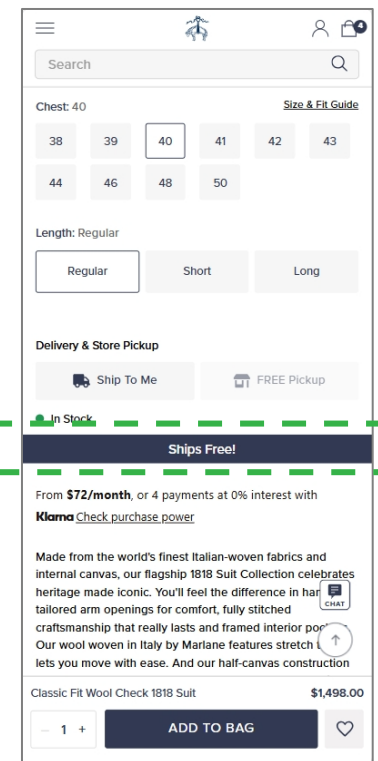

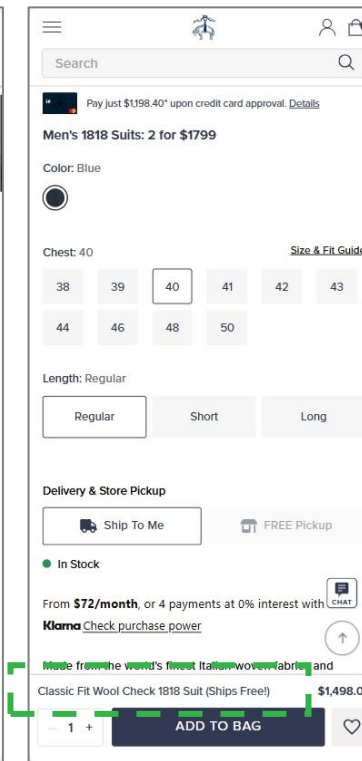

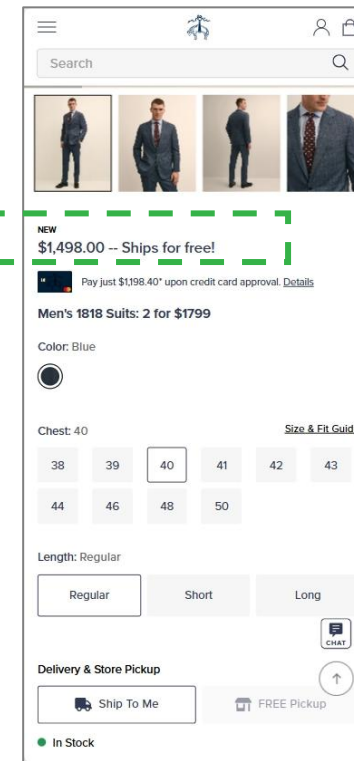

Rationale:

- Lucky, which has the lowest checkout abandonment rate, shows free shipping in minicart: [Link](#)
- Baymard study shows that 39% of users that state they're not "just browsing" abandon sites because "Extra costs are too high": [Link](#)

Control

Experiment

PDP Size Selection In CTA Drawer

Concept

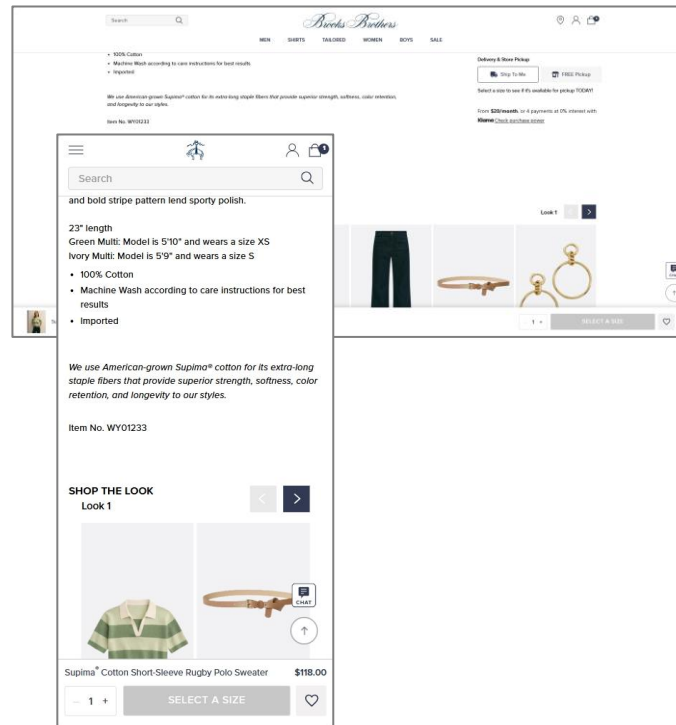

Primary focus:

- Make PDP ATC and checkout easier with consistently present size selection

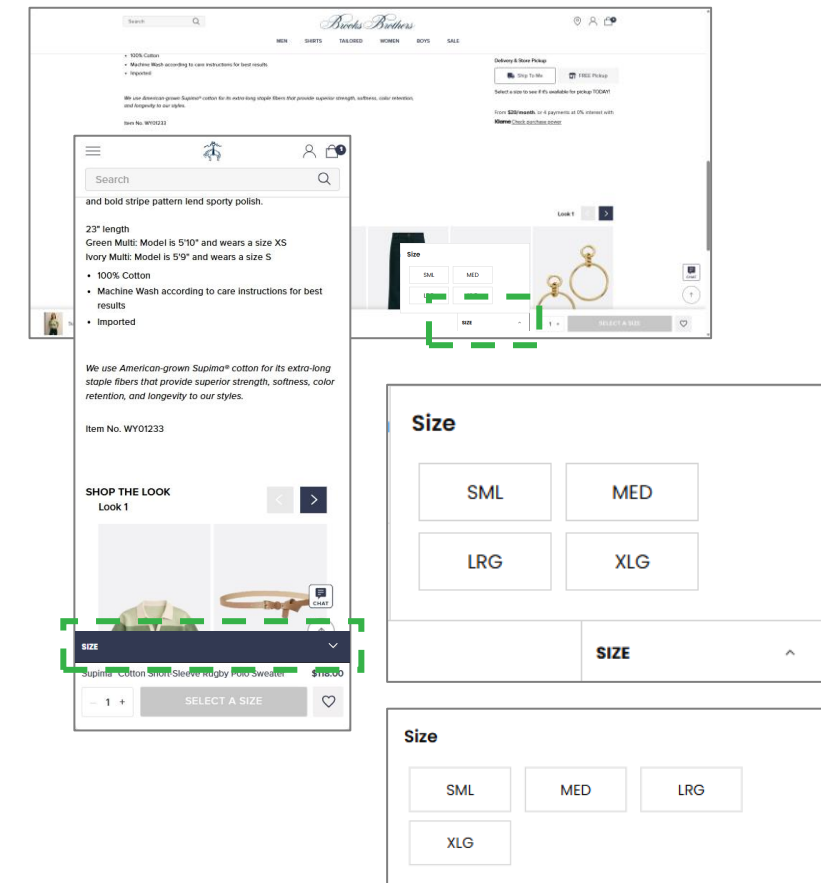

Rationale:

- Brooks Brothers' PDPs are the biggest bottleneck as the highest trafficked (3.5M sessions 8/1/25 – 10/31/25) and highest drop-off (83.2%) point in the funnel
- This feature is present on Pacsun: [Link](#)

Control

Experiment

Let Customers Know If They Get Free Shipping In Minicart

Concept

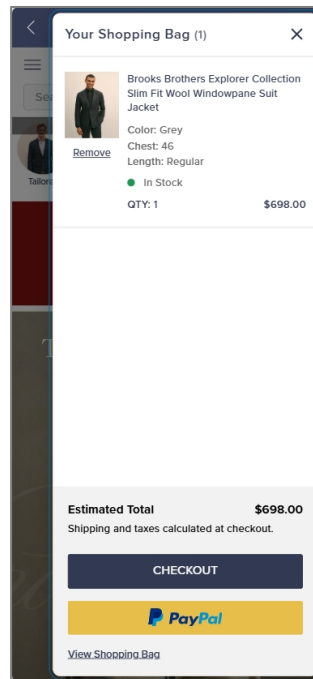

Primary focus:

- Reduce concerns over hidden fees by confirming free shipping earlier in the journey

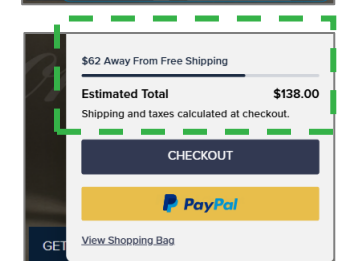

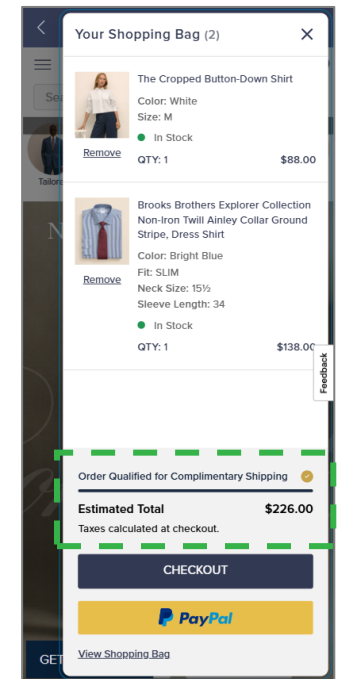

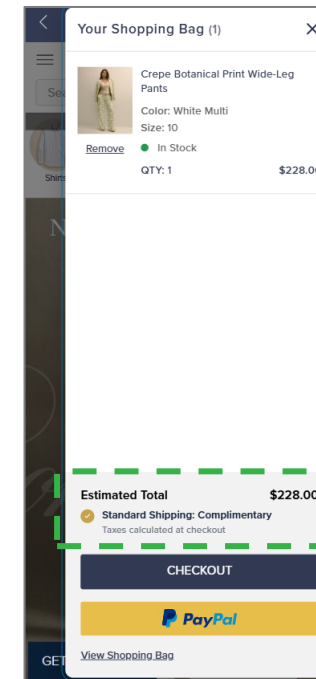

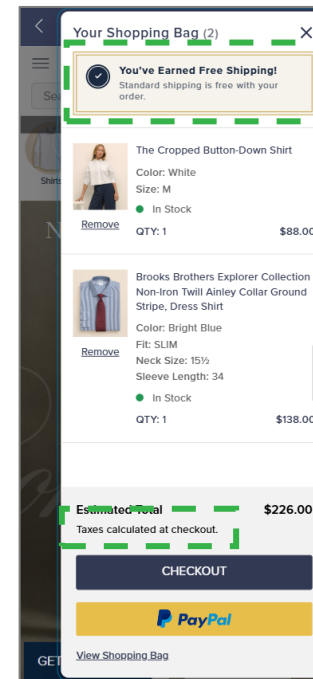

Rationale:

- The #1 reason for cart abandonment is because extra costs are too high, with 39% of survey respondents selecting that as a reason for abandoning cart in the last 3 months ([Link](#))
- Lucky Brand uses this feature and has the lowest checkout abandon rate of any SPARC brand at 48.12% compared to Brooks Brothers' 71.67% abandonment rate

Control

Experiment

In-Cart Urgency Copy

Concept

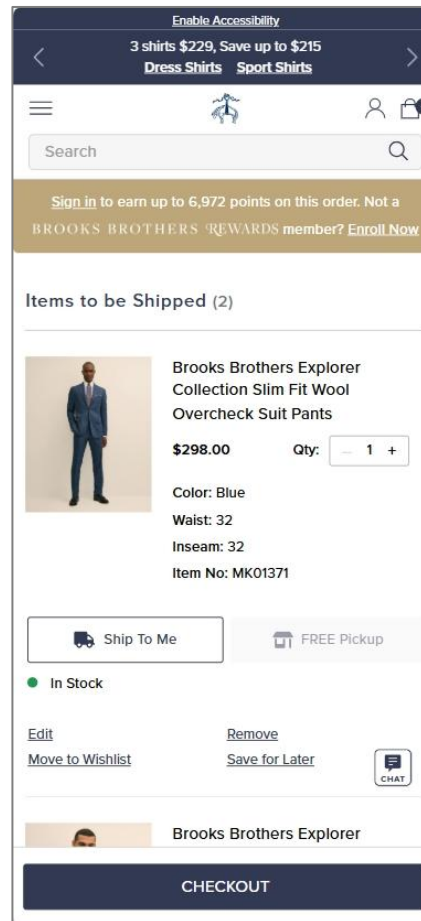

Primary focus:

- Encourage immediate action with urgency that messages fear of lost opportunity

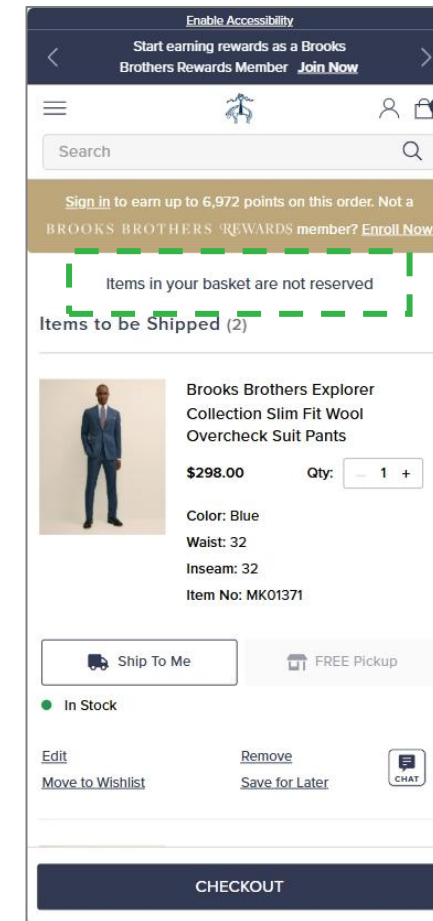

Rationale:

- This tactic is employed by Charles Tyrwhitt ([Link](#))

Control

Experiment

Bag Summary Moved To Top Of Checkout

Concept

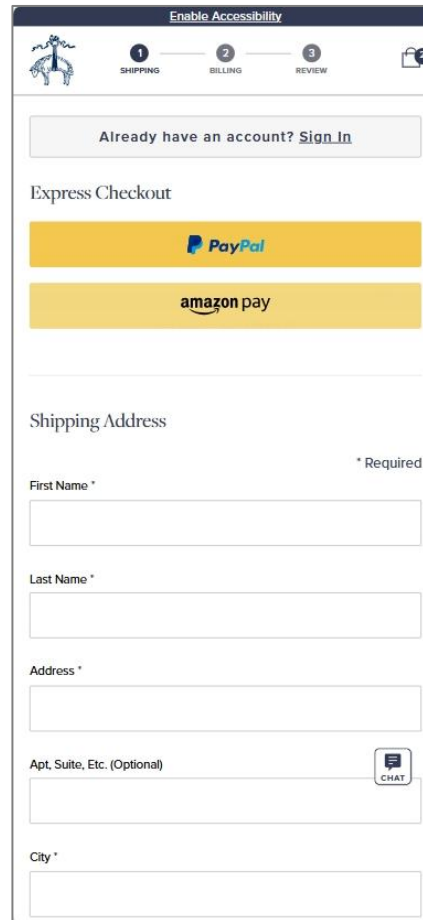

Primary focus:

- Prevent navigating backward in the funnel by affirming user choices with a prominent yet minimalist bag summary in checkout

Rationale:

- ~16% of users on Brooks Brothers' site return to bag immediately after beginning checkout and 23% return to the PLP
- Cart Abandon after begin checkout is 56%
- This tactic is employed by Ralph Lauren ([Link](#))

Secure Icon Around Checkout Payment

Concept

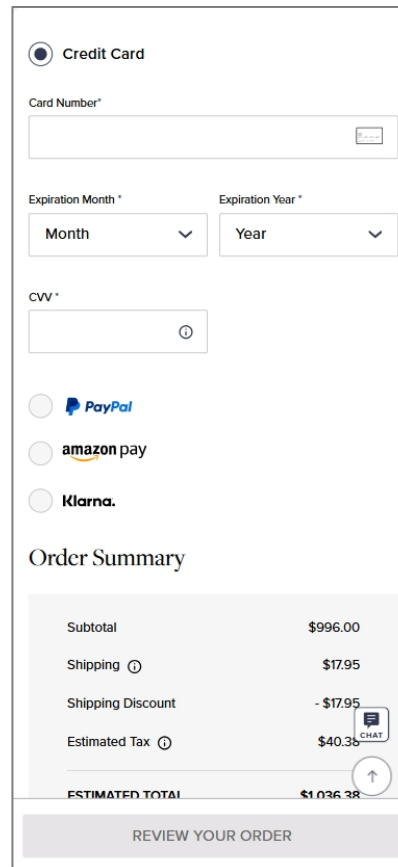

Primary focus:

- Ease user concerns around information security with low lift reminders

Rationale:

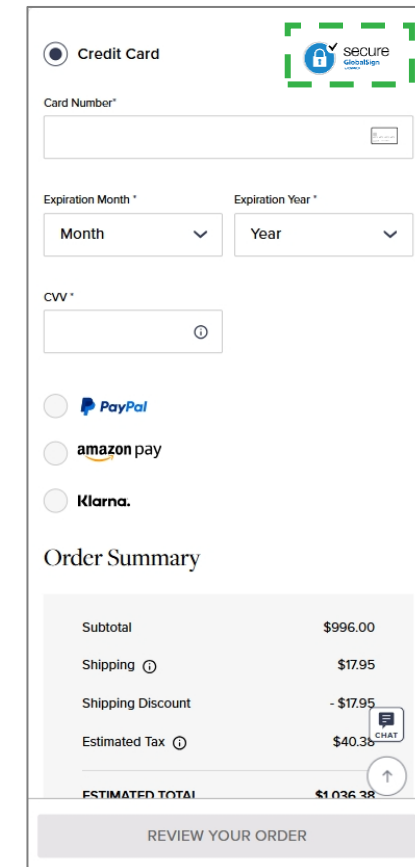

- This tactic is employed by Ralph Lauren ([Link](#)), Charles Tyrwhitt ([Link](#)), Indochino ([Link](#))
- 19% of users say they've abandoned an e-com funnel due to lack of payment trust in the last 3 months

Control

Control checkout form showing the Credit Card payment method. The form includes fields for Card Number, Expiration Month, Expiration Year, and CVV. Below these fields are radio buttons for PayPal, Amazon pay, and Klarna. An Order Summary section displays the Subtotal (\$996.00), Shipping (\$17.95), Shipping Discount (-\$17.95), Estimated Tax (\$40.38), and the ESTIMATED TOTAL (\$1,036.38). A 'REVIEW YOUR ORDER' button is at the bottom.

Experiment

Experiment checkout form, identical to the control but with a 'secure' icon (a padlock with a checkmark) in the top right corner of the form area. The form includes fields for Card Number, Expiration Month, Expiration Year, and CVV. Below these fields are radio buttons for PayPal, Amazon pay, and Klarna. An Order Summary section displays the Subtotal (\$996.00), Shipping (\$17.95), Shipping Discount (-\$17.95), Estimated Tax (\$40.38), and the ESTIMATED TOTAL (\$1,036.38). A 'REVIEW YOUR ORDER' button is at the bottom.

Checkout Immediately After Payment

Concept

Primary focus:

- Improve Order Rate without adding a new page where users can't second-guess decisions

Rationale:

- This is present on Charles Tyrwhitt ([Link](#)) and Indochino ([Link](#))
- 18% of users say cumbersome checkouts have caused cart abandonment: [Link](#)

My Style Module Sets PLP, PDP & Booking Filters & Selections

Build In Prod + Experiment With Placement (Suit guide, Trufit Area of PDPs, Tailored Section of Nav and more)

Primary focus:

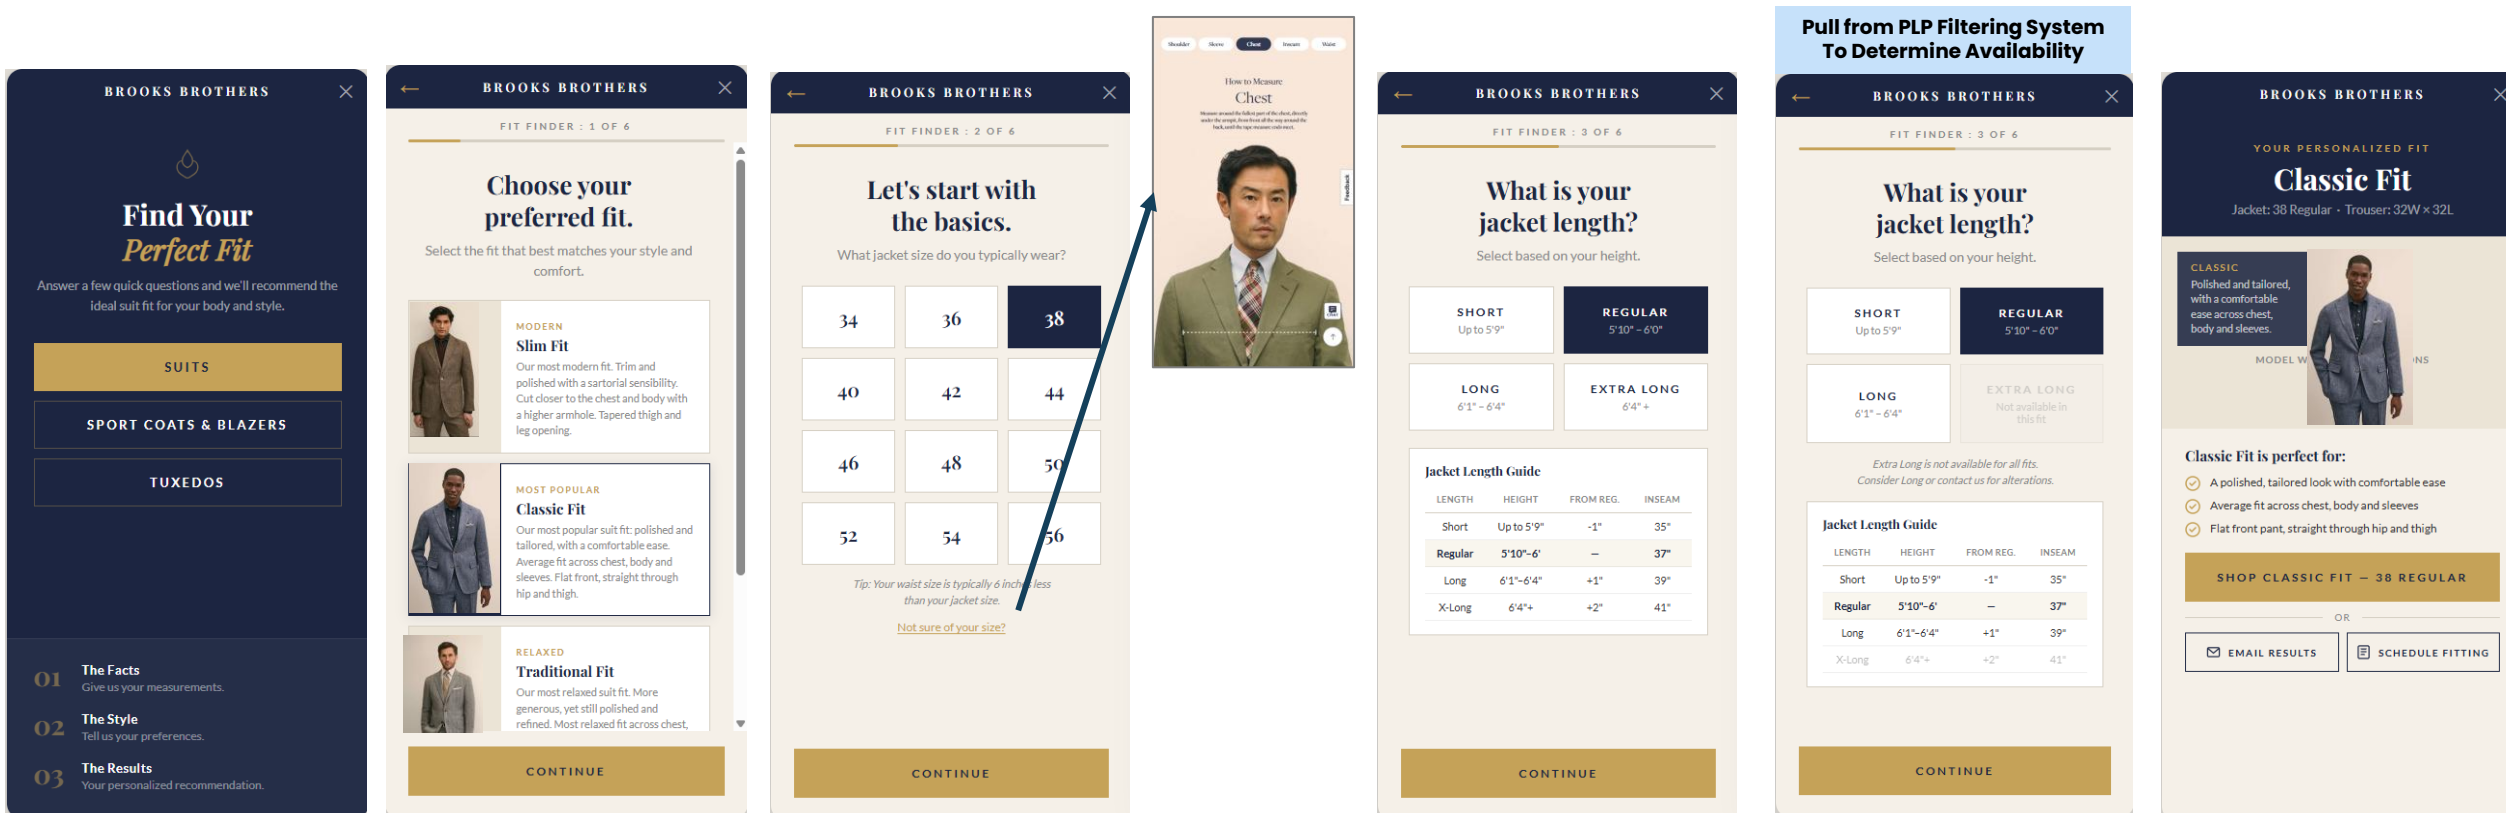

- Help suit purchasers find the right fit with a gamified journey

Justification:

- The way to appeal to target audience is through education: [Link](#)
- This is in place on Bonobos: [Link](#)

Potential Step Changes / Iterations:

- Add fabric selection
- Add color selection
- Add Trousers if PLP filters eventually expand (See next slide)
- Occasion-led re-work

“My Style” Module Trouser Slides (Skip Short Term)

BROOKS BROTHERS

←

×

FIT FINDER : 4 OF 6

Now for the trousers.

What is your trouser waist size?

28	29	30	31
32	33	34	35
36	37	38	39
40	42	44	46

Based on your jacket size (38), your waist is likely around 32.

[Not sure of your size?](#)
