

[BB] – Enhancement I Dress-Shirt PLP XXX | Filter Categories Re-Ordered

RESULTS

TEST HYPOTHESIS

Surfacing more important filters earlier in the page encourages feature engagement, leading to more relevant product displays and downstream conversions

VARIATION DETAILS

Control – Size Prioritized

Variation – Fabric and Collection Prioritized

TEST METRICS

Primary Metric:

Filter Options Selected: *+7.02%

Secondary Metrics:

PDP Visit Rate: +1.55%

PDP Cart Add Rate: +4.84%

PDP Visits per Visitor: +7.52%

The Price is \$89.60 and the product is labeled as Men's Shirt.

Variation [Preview Link](#)

The Variation product page shows a filter sidebar with the following sections: Product Category (Dress Shirts, Formal Shirts), Fit (Slim, Regular, Traditional, Big & Tall), Fabric (Cotton, Linen, Sea Island Cotton, Stretch Cotton, Stretch Supima® Cotton), and Collection (Black Fleece, Broadcloth, Explorer, Luxury). The Price is \$89.60 and the product is labeled as Men's Shirt.

INSIGHTS

- Generating additional filter feature engagement displayed better products for users, resulting in more PDP visits and Cart Additions both on the PLP and PDPs.
- Upper funnel conversion lift followed users downstream

NEXT STEPS

- Allocate traffic at 100% to the variant
- Move code to prod
- Extend findings to other pages
 - De-prioritize size, especially when selection is large and confusing. **Watch out** for easily understood sizes
 - Prioritize fabric and collection where applicable
